

BRINGS SUIT TO DIS-
SOLVE BIG OCTOPUSGovernment Attacks
Steel Trust.

ASKS ITS DISSOLUTION

Action Is the Most Sweeping
Anti-Trust Move Made by
Department of Justice.

Trenton, N. J., Oct. 27.—The government's long planned suit to break up the so called "steel trust" was begun here in the United States circuit court. It was the most sweeping anti-trust action ever brought by the department of justice.

The government asks not only for the dissolution of the United States Steel corporation, but for the dissolution of all constituents or subsidiary companies which are alleged to have combined in violation of the Sherman law to "maintain, or attempt to maintain, a monopoly of the steel business." There are thirty-six subsidiary corporations named as defendants.

J. Pierpont Morgan, John D. Rockefeller, Andrew Carnegie, Charles M. Schwab, George W. Perkins, E. H. Gary, John D. Rockefeller, Jr., Henry C. Frick, Charles Steele, James Gayley, William H. Moore, J. H. Moore, Edmund C. Converse, Percival Roberts, Jr., Daniel G. Reid, Norman B. Ream, P. A. Widener and William P. Palmer are named individually as defendants.

The United States Steel corporation, Carnegie Steel company, Carnegie company of New Jersey, Federal Steel company, National Steel company, American Steel and Wire company of New Jersey, National Tube company, Shelby Steel Tube company, American Tinplate company, American Sheet and Tinplate company, American Steel Hoop company, American Bridge company, Lake Superior Consolidated Iron mines, all of which were organized under the New Jersey laws, and the H. C. Frick Coke company, Tennessee Coal and Iron and Railway company and the Great Western Mining company are named as corporate defendants.

Hills Named as Trustees.
Louis W. Hill, James N. Hill, Walter J. Hill, E. T. Nichols and J. M. Gruber are named as trustees in connection with ore companies.

The steel corporation's lease of the Great Northern railway's ore properties, which the directors of the steel company formally decided to cancel, is alleged to be illegal. This action of the directors was taken but a few hours before the filing of the bill. The government acknowledges that it was advised of the steel corporation's intention in this respect, but states that under the terms of the lease no cancellation would be effective until Jan. 1, 1915, and there is no limit upon the amount of ore that can be taken out in the meantime.

Sensational allegations fairly topple over each other in the government's petition, which is an equity proceeding praying for injunction to estop continuance of the alleged monopoly and such other relief as the court may grant.

The steel corporation's acquisition of the Tennessee Coal and Iron company during the panic of 1907 is declared illegal and scathingly criticised. The petition declares that E. H. Gary and Henry C. Frick misled former President Roosevelt when they told him "that but little benefit will come to the steel corporation from the purchase."

"The president," it says, "was not made fully acquainted with the state of affairs in New York relevant to the transaction as they existed. If he had been fully advised he would have known that a desire to stop the panic was not the sole moving cause, but that there was also a desire and purpose to acquire control of a company that recently assumed a positive position of potential competition of great significance."

Threatened Financial Calamity.

"It is certain that the corporation availed itself of the embarrassment of Moore & Schley (New York brokers who had large holdings of Tennessee stock) at a most critical period and the hammering of the Tennessee stock and the threatening of a general financial calamity, to acquire the control of a competitor taking on a formidable aspect."

"The corporation thus greatly strengthened its control of the country's iron ore supply, its predominant position in the South's iron and steel trade eliminated a competitor and unlawfully acquired a power which is a menace to the welfare of the country, and should be destroyed."

Reference is made to the Gary dinners, although not by name, as meetings.

Logic.
"What should be done in a case of drowning?" asked the third man who was learning to swim.

"Well," replied the instructor, "I should think the natural thing would be to have a funeral."—Puck.

TAFT GUEST OF
BADGER STATE

President Given Ovation From
Green Bay to Milwaukee.

GOVERNOR JOINS THE PARTY

McGovern Presides at Demonstration
In Honor of Chief Executive at Oshkosh and Accompanies Him to Milwaukee—In Speaking at Appleton President Defends High Tariff Enjoyed by Paper and Pulp Industries.

Milwaukee, Oct. 27.—Senator La Follette will have the Wisconsin delegation to the Republican national convention next year without any real show of a contest, but the electoral vote of the state will be cast for the Republican candidate for president, whoever he may be. This is the consensus of opinion of Wisconsin politicians, Democrats, Republicans, regular and irregular, and representatives of all factions of all parties and parts of parties, after President Taft's tour of the state, which reached its last lap at Milwaukee.

Governor F. E. McGovern, both in public addresses and in personal interviews, expressed the conviction that the Republican ticket, with any nominee, would have Wisconsin in the electoral college list next year.

The president has had a veritable ovation from Green Bay to Milwaukee, the one marring fact that sticks out being the failure or refusal of federal officeholders to participate in the welcome to him. Former Representative Kuestermann and Representative Kopon joined the party at Green Bay and Representative Davidson joined it at Oshkosh. Governor McGovern also joined the party at Oshkosh, presided at the demonstration in the president's honor at Oshkosh and accompanied the party to Milwaukee.

Senator La Follette is in Washington and other congressmen and state and federal officials have additions to the biblical excuses for being absent. Even the most bitter partisans at this hour can but admit that the people of Wisconsin have been cordial to the point of enthusiasm in their greetings to the chief executive. It may be argued that the receptions have been nonpartisan, but the fact remains that every city and town visited has poured out a cheering throng to welcome Mr. Taft.

The president has borne no indifferent message to the Wisconsin citizens and voters. He opened his campaign at Appleton, where he went directly at the heart of the question of continuing the high protection now enjoyed by the paper and pulp industries. Some of the citizens of Appleton, directly or indirectly interested in the industry, had written the president a letter asking him to explain certain clauses and sections of the Payne-Aldrich tariff law and the proposed Canadian reciprocity agreement affecting the paper business.

The president answered the letter directly, frankly and fearlessly and explained every detail of the Canadian reciprocity proposition and the Payne-Aldrich tariff law so far as they affect the industry which is so largely represented in the Fox river valley. He quoted figures to show that the paper industry will not be hurt at all by the Payne-Aldrich bill or by the reciprocity measure. If Canada finally accepts it.

The crowds that greeted the president at Green Bay and Appleton were record breakers for those places, but they were comparatively small when contrasted with the throngs that poured out at Oshkosh and Fond du Lac. At Oshkosh, practically all of the business and professional men of the city either participated personally in the reception, at one point of another, or contributed to the universality of the welcome.

The president delivered his arbitration and peace address at Fond du Lac, declaring that he could talk on no other topic after his visit with General Bragg, who had had an experience in both the conquests of war and the conquests and triumphs of peace. The address was most enthusiastically received. The subject of arbitration, usually given but little attention by the average citizen, has become one of the president's best political speeches, in that, by his plain statement of the situation, those who have heard him have been taught to realize the importance of the question and its direct effect upon the pockets and principles of the people as a whole.

SALT LAKE ORDER STANDS

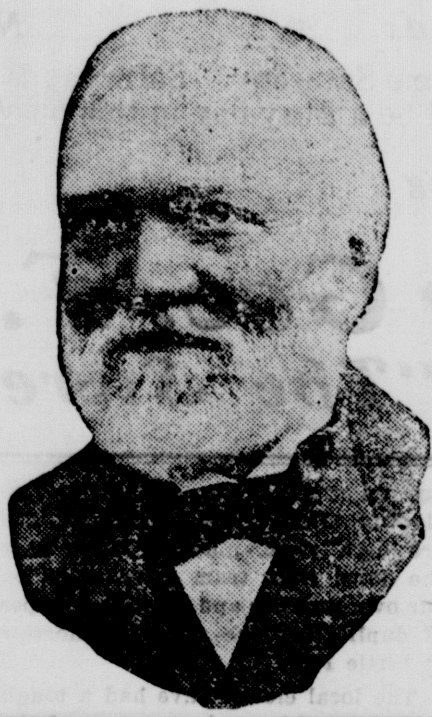

Commerce Court Rules Against Roads
In Pacific Coast Cases.

Washington, Oct. 27.—At the conclusion of the arguments in the Pacific coast cases the commerce court declined to grant a temporary injunction in the Salt Lake case, as requested by the transcontinental carriers.

The interstate commerce commission issued an order requiring the transcontinental railroads to adjust their rates to Utah and Nevada points so as to avoid discrimination in favor of Pacific coast terminals, to become effective Nov. 15.

ANDREW CARNEGIE.

One of the Defendants
in Steel Trust Litigation.

ings which accomplished more than written pools or agreements, which frequently were broken.

"It was understood and agreed," says the bill, "that they (the steel manufacturers represented at the meetings) were bound to protect one another, that to carry out this purpose their honor was at stake and that the obligation binding upon them was even dearer than life itself and that no one of them should act or fail to act except with a distinct and clear understanding that his honor was involved, and that this was more binding on him than any written or verbal contract. When bidden by the chief executive of the corporation they came at any time, from any distance, ready, willing and anxious to turn over to him and to his friends all that was in their minds and in their hearts concerning their own business."

Held Position of Influence.

Interlocking directorates through which those in power in the steel corporation held positions of influence on the directorates of other powerful corporations are mentioned as "a method more reined, more euphonious, but none the less more effective than pools."

"Through its directors thus distributed," says the government's petition, "the corporation is in direct touch with all of the large railroad and steamship companies of the United States, such powerful concerns as the Standard Oil company, the Pullman company, the International Harvester company and the Western Union Telegraph company, and with the overwhelming majority in money and power of the banks and trust companies of the United States. The possibilities of the power and the control that may thus be exerted over trade and commerce is inestimable."

"The power and control that have been exerted by the corporation, largely through the grasp of its tentacles thus thrown out upon the consumer, competitors and capital, is incompatible with the healthy commercial life of the nation."

STEEL TRUST WILL FIGHT

Statement of Man Connected With
Morgan Interests.

New York, Oct. 27.—From one closely connected with the Morgan interests came this sharp and concise statement:

"I am not speaking officially, but you can say that we shall fight the government to the bitter end."

Francis Lynde Stetson, general counsel to the steel corporation, said that it was perhaps better that the dissolution proceedings had been instituted.

"It is better to know where we stand," he added, "than to have all this uncertainty—all these rumors and reports moving through the air."

JAMES J. HILL IS SILENT

Refuses to Discuss Suit Against the
Steel Trust.

St. Paul, Oct. 27.—James J. Hill, chairman of the board of directors of the Great Northern railway, which corporation is named in connection with the suit instituted by the federal government asking for the dissolution of the so called steel trust, declined to be interviewed on the subject. He said he had nothing to say to the newspapers.

The petition filed by the government asks that the ore lease between the Great Northern railway and the Great Western Mining company be declared illegal.

ATHLETICS DEFEAT GIANTS

Philadelphia Wins World's Championship
Baseball Series.

Philadelphia, Oct. 27.—In an exhibition of batting seldom seen in a premier baseball series the Philadelphia American league team defeated the New York Nationals in the sixth game of the series by the overwhelming score of 13 to 2, thus giving them the four necessary games out of the six played to carry off baseball's greatest honor and making the Philadelphia Americans champions of the world for the second successive season. It was more than a mere defeat for New York, it was a rout.

Ancestor Worship.

Worship of ancestors was the real practical religion of Egypt's primitive period in 4100 B. C.

HAS TAFT TOUR
WON THE WEST?

Western Representatives Not
Agreed on This Point.

TWO VIEWS AS TO KANSAS.

Bristow Says State Will Be For La
Follette—Campbell Equally Sure It
Will Favor President—Will the Pro-
gressive Democrats Control Their
Party?

By ARTHUR W. DUNN.

Washington, Oct. 27.—[Special.]—"Has Taft made a success and gained anything in the west?" That question, with variations, has been asked whenever men meet who are interested in national politics. It will be a question propounded to every man from the west from this time forward and the answers will be as different as the political attitude of the men who reply. Only a short time ago Senator Bristow made the emphatic statement that Kansas had not been changed by the president's trip through the state and that Kansas would send a La Follette delegation to the national convention. Soon afterward Congressman Phil Campbell, one of the two regulars in the congressional delegation, appeared in Washington and stated, with a positiveness that equaled the senator's words, that Kansas was for Taft and that he would have the delegation from the state.

Similar to 1896.

Comparisons are made showing that conditions in politics are similar to those of 1896. Then it was the silver question, now it is progressiveness. The silver element in the Democratic party predominated, and although there was a strong silver sentiment in the Republican party the gold crowd won, just as it is predicted the conservative element will win in that party again. The question is, Will the radical Republicans remain with their party in sufficient number to make that party triumphant? Then there is another uncertainty—the radical element in the Democratic party may not be able to control the coming convention as did the silver men in 1896. More than a year of active campaign work was done by the silver men to obtain control of the party. Some of the issues of that time are still alive. The money question overshadowed everything else then, and it has now disappeared.

Taliaferro Has Regrets.

Former Senator Taliaferro of Florida was always an admirer of Senator Bailey. "It is to be regretted," remarked Taliaferro, "that politics should take such a turn in this country that a man like Bailey is driven from the senate. I do not mean that he was forced to retire by conditions in Texas, but that he finds himself so far out of tune with the prevailing sentiment among men of his party that he cannot remain longer a member of the senate. It is a curious political condition."

Proud of Williams.

Many southern men believe that Senator Williams will become the actual leader of the Democrats in the senate. "The people of the south are proud of John Sharp Williams," said a man who has traveled over that section, "and his popularity is not confined to state lines. In one session in the senate he came to the front as the best representative of their ideas and interests and won the same recognition which he had obtained in the house. We look forward to the time when he will be the chosen minority leader, as he was when a member of the other body."

Irrigation Making Towns.

Men who have been accustomed to see towns grow slowly in the east are surprised to find thriving villages, towns and even embryo cities in that region once known as the "great American desert." "The growth of towns in that section is little short of marvelous," remarked a man of the east who has just returned from a tour of the west. "As soon as an engineering work is finished which provides water for farming these towns spring up almost like magic. They are all laid out in an attractive manner, always with a park in the center and with good streets and broad avenues."

Couldn't Happen in Washington.

Friends of Vice President Sherman are shocked at the story that he passed through a crowded corridor of a New York hotel and was recognized by only three people, one a Washington newspaper man and a man and his wife from a western city. The latter two could not call his name. That could not happen in Washington, especially if he wore the smile which has given him the name of "Sunny Jim."

Want to See the President.

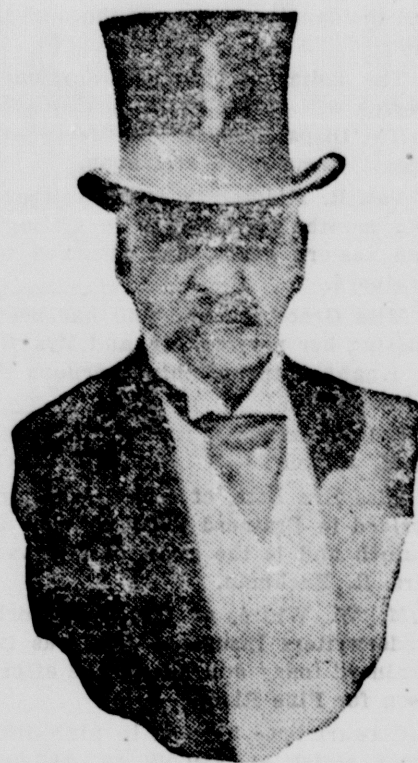

"People want to see the president," is an excuse which was given during the Roosevelt administration for the traveling of the chief executive about the country, and it is a fact that there is a demand for presidential visits which no president can supply. Once it becomes known that the president contemplates a trip and invitations of all kinds pour into the White House from all states, cities and towns. Delegations come here and present handsomely prepared invitations, believing they can tempt the president in that way if other means fail.

Everything in Stock.

"I want some lawn." "Yes'm. For a dress or for a front yard?"—Louisville Courier-Journal.

J. PIERPONT MORGAN.

Marshal Serves Him With
Copy of Bill of Equity.

© 1910, by American Press Association.

SERVING COPIES OF BILL

United States Marshal Gets to J. P.
Morgan and Judge Gary.

New York, Oct. 27.—United States marshals were busy here serving copies of the bill in equity upon such of the individual defendants as could be found.

Judge E. H. Gary, chairman of the board of directors of the corporation, was one of those served.

"I do not intend to make any statement," said Judge Gary, "I was served with a copy of the bill."

J. Pierpont Morgan was another of the individual defendants served.

"I have nothing to say," was his only response to queries.

ACTION FEARED AT DULUTH

Believe Steel Corporation's Policy Has
Been Good Thing.

Duluth, Oct. 27.—The report from Washington that application has been made to have the steel corporation and some of its subsidiaries dissolved was news to the local officials of the corporation and they declined to express an opinion as to the effect actual dissolution will have should it take place.

Duluth people view the proposed dissolution of the steel corporation with some apprehension and the same feeling obtains throughout the lake iron region. Before the steel corporation was organized the iron mining industry was subject to great fluctuations. There were periods of great prosperity to be followed by periods of great depression. But since the steel corporation has been in existence times have never become wholly bad in the mining regions of Minnesota and Michigan.

ONLY FOUR KNEW OF SUIT

Filing Is Like a Bombshell to Official
Washington.

Washington, Oct. 27.—The filing of the suit was a bombshell to official Washington and it is said that only four men knew of it. Attorney General Wickham, his secretary, Frank Cole and J. M. Dickinson, former secretary of war, the government's special counsel in the case, are three who were in the secret and the fourth, it is presumed, was the president of the United States.

Special agents of the department of justice have been at work on the case gathering evidence at various times during last three years. It was said at the department of justice that this evidence had been supplemented by some of the testimony given before the Stanley committee of the house of representatives, which has been conducting an investigation into the steel corporation.

ORGANIZATION OF BIG TRUST

Charles M. Schwab Claims to Have
Given Morgan the Idea.

New York, Oct. 27.—The United States Steel corporation was organized in 1901 under the financial management of J. P. Morgan & Co., and began its corporate existence under the laws of New Jersey on April 1, 1901. Charles M. Schwab, formerly Andrew Carnegie's right hand man, and first president of the corporation, is said to have first suggested the idea, having broached it, according to his own testimony before the Stanley committee, at a dinner held in New York, at which J. P. Morgan, Mr. Carnegie, H. C. Frick, E. H. Harriman, Henry Phipps and other prominent financiers and steel men were present.

Thrashing Engineer Fatally Hurt.

Belgrade, Minn., Oct. 27.—George Harris of Montville, seven miles east of here, an experienced thrashing engineer, met with a fatal accident while backing his engine to hitch to a separator. The engine accidentally came in such close contact with the separator that Harris was crushed.

Eight in Hyde Jury Box.

Kansas City, Oct. 27.—The entire venire summoned in the case of Dr. B. C. Hyde, charged with the murder of Colonel Thomas H. Swope, was exhausted. Eight men now have been chosen tentatively for the jury.

PICK WILSON AS
NEXT PRESIDENTTRUNK LINES WILL
FIGHT THE MILLERS

Bitterly Oppose Lower Lake and
Rail Freight Rates.

Buffalo, N. Y., Oct. 27.—The Eastern and Western trunk lines will fight to the finish the efforts of the North western milling interests to obtain for Minneapolis and surrounding points lower lake and rail freight rates to the Atlantic seaboard is said to have been indicated at a meeting of the railroads' traffic officials here when proposed tariffs for 1912 were discussed.

It is said that the officials, among whom were vice presidents and general managers, tentatively agreed that if they are sustained by the interstate commerce commission in the 11 cents per hundred pounds from Buffalo to New York city they will continue the 23-cent differential, against which the milling interests are combating so vigorously.

Another meeting will be held in Buffalo late in November, when there will be framed the 1912 lake and rail tariffs under discussion. This was announced by C. C. McCain, president of the Trunk Line association, who was chairman of the session.

Buffalo will benefit from the railroads' stand in the flour rate controversy if the Minneapolis millers are sincere in the statements attributed to them. The millers are said to have declared that unless reduced lake and rail rates could be obtained they would be forced to move to Buffalo. But the officials who were here scoffed at the idea of the millers being forced from Minneapolis to Buffalo by the 23-cent rate.

CAMPAIGN SECRETS WANDER

Committee Still on Trail of Stephen-
son's Mysterious Trunk.

Milwaukee, Oct. 27.—The United States senate committee, investigating the election of Senator Isaac Stephenson, failed to solve the mystery of the trunk, which is said to contain the documents used in the senator's \$107,000 campaign for re-election. Although four hours were spent in examining witnesses as to the wanderings of the trunk, the contents were not revealed.

It was shown that the senator's papers had gone through the following experiences:
Packed in a pine box in 1908 and shipped from Milwaukee to the senator's home at Marinette, Wis.

Taken in 1909 across the river to Menominee, Mich., out of reach of the state investigating committee.

Sent back to Marinette.
Transferred to gunny sacks and a suit case and carried by automobile at night sixty miles to Wells, Mich.

Put in an old steamer trunk and shipped back to Milwaukee.

Reciprocity.

"Bridget," said Mrs. Grounchey, "I don't like the looks of that man who called to see you last night."

"Well, well," replied Bridget. "Ain't it funny, ma'am? He said the same about you."

GRAIN AND PROVISION PRICES

Duluth Wheat and Flax.

Duluth, Oct. 26.—Wheat—To arrive and on track—No. 1 hard, \$1.11½; No. 1 Northern, \$1.10½; No. 2 Northern, \$1.07½; Dec., \$1.09½; May, \$1.13; Flax—On track and in store, \$2.25½; to arrive, \$2.27; Dec., \$2.24.

St. Paul Live Stock.

St. Paul, Oct. 26.—Cattle—Good to choice steers, \$7.50 to 7.99; fair to good, \$5.75 to 6.35; good to choice cows and heifers, \$4.75 to 5.15; veals, \$5.00 to 7.00; Hogs—\$6.05 to 6.20. Sheep—Wethers, \$3.25 to 3.50; yearlings, \$3.25 to 4.00; spring lambs, \$4.00 to 5.00.

Chicago Grain and Provisions.

Chicago, Oct. 26.—Wheat—Dec., \$1.06½ to 1.09½; May, \$1.05½; July, 99c. Corn—Dec., 64½ to 64¾c; May, 65½ to 66c; July, 66c. Oats—Dec., 47½c; May, 49½c; July, 46½c. Pork—Jan., \$15.77 to 15.80; May, \$15.87. Butter—Creameries, 23½ to 30c; dairies, 22½ to 27c. Eggs—15 to 22c. Poultry—Turkeys, 14c; chickens, 9c; springs, 10½c.

Minneapolis Grain.

Minneapolis, Oct. 26.—Wheat—Dec., \$1.09½; May, \$1.13½. Cash close on track: No. 1 hard, \$1.10½; No. 1 Northern, \$1.09½ to 1.10½; to arrive, \$1.09½ to 1.10½; No. 3 Northern, \$1.02½ to 1.04½; No. 3 yellow corn, 72½ to 73½c; No. 4 corn, 70 to 71½c; No. 3 white oats, 45½ to 46½c; No. 3 oats, 45c; barley 68c to \$1.18; flax, \$2.25; to arrive, \$2.24.

Chicago Live Stock.

Chicago, Oct. 26.—Cattle—Beeves, \$4.55 to 8.75; Texas steers, \$4.00 to 5.85; Western steers, \$4.15 to 7.00; stockers and feeders, \$2.90 to 5.75; cows and heifers, \$1.90 to 5.85; calves, \$5.00 to 8.50. Hogs—Light, \$5.70 to 6.37½; mixed, \$5.80 to 6.45; heavy, \$5.70 to 6.45; rough, \$5.75 to 6.00; good to choice hawes, \$6.00 to 6.45; pigs, \$3.75 to 5.85. Sheep—Native, \$2.25 to 3.70; yearlings, \$3.60 to 4.25; lambs, \$3.75 to 6.00.

Wisconsin Democrats Acclaim
New Jersey Governor.

MAKES ADDRESS AT MADISON

La Follette Republicans Join in Hon-
oring Woodrow Wilson and John A.
Aylward Creates Demonstration
When He Says Wisconsin Is Being
Honored by the Presence of the
Present and Next President.

Madison, Wis., Oct. 27.—"I do not recognize any difference between my own principles and the principles of the progressive Republicans," announced Governor Woodrow Wilson of New Jersey in an address before Democrats and La Follette Republicans here. He was answered by many of the progressive Republicans present with the assurance that if President Taft was renominated Wilson would carry Wisconsin.

The New Jersey executive broadly hinted that such a fusion of Democrats and progressive Republicans with a platform based on their common hopes would be met with acclaim by his followers.

"I understand the two have become sadly mixed in Wisconsin," Governor Wilson continued. "I understand the Republicans have had to make drafts on the Democrats to carry their measures through and win their elections. That means labels are wearing off and you have to examine their insides to see what they really are."

"And now we propose that we match our insides and get together."

The Republicans present applauded and listened, apparently with approval, to his pleas that big business—the special interests—get together with the people instead of warring with them. "The great problem in politics is 'get together,'" is the way he summarized it.

Woodrow Wilson was acclaimed the next president of the United States by Democrats of Wisconsin. The governor, who was their guest at a rally held in the university gymnasium, spoke on the present trend in the field of politics.

There was a demonstration when the toastmaster, Attorney John A. Aylward of this city, said:

"Wisconsin is favored of the gods in that the president of the United States is within her borders and in that the next president of the United States is also among us."

Governor Wilson declared the Democratic party is in the midst of a great struggle to wrest control of the country from special interests.

PAYNE TARIFF RATES LOWER

Treasury Statement Shows Average
Decrease of 4.79 Per Cent.

Washington, Oct. 27.—The treasury department statement regarding receipts from customs duties under the present tariff law and comparing these receipts with receipts under the Dingley law proves to be on investigation, a document showing by official figures that the present tariff has resulted in lower duties. Any politician who starts the argument that the Aldrich-Payne tariff does not show a revision downward is thus brought face to face with these official figures of the treasury department.

The treasury statement claims that two years' operation of the new tariff shows a decrease in the average duty of 4.79 per cent. The claim of the insurgents and Democrats has been that the new tariff increased rates from 10 to 20 per cent and frequently many times that on single articles.

STEEL TRUST TAKES ACTION

Directors Decide to Cancel Great
Northern Ore Lease.

New York, Oct. 27.—At a special meeting the directors of the United States Steel corporation decided to cancel the corporation's lease of the Great Northern ore properties. The directors also adopted resolutions recommending to the directors of the Duluth, Missabe and Northern Railway company a reduction in freight rates on iron ore from points in the Mesaba range to Duluth to a figure not exceeding 60 cents a ton, and to Duluth and Iron Range Railway company a similar reduction on the line en route from the Vermilion and Mesaba iron range to Duluth and Two Harbors, Minn.

Boy Burned to Death.

Rhineland, Wis., Oct. 27.—Word comes from Cavour of the burning to death of Archie Hess, a seven-year old boy, in a fire which destroyed the hotel and saloon building of Frank Hess. A woodsman is missing and is thought to have perished in the fire. Other occupants of the building had to jump from the second story windows.

Another Heiress Missing.

New York, Oct. 27.—In circumstances almost paralleling those in which Miss Dorothy Arnold was lost to her relatives a year ago, Miss Consuelo Fajardo, nineteen years old, a Porto Rican heiress, has been missing from the Hotel Felix Portland here since Oct. 18, when she walked out, telling persons whom she met that she was going to buy a magazine.

BRINGS SUIT TO DIS-
SOLVE BIG OCTOPUSGovernment Attacks
Steel Trust.

ASKS ITS DISSOLUTION

Action Is the Most Sweeping
Anti-Trust Move Made by
Department of Justice.

Trenton, N. J., Oct. 27.—The government's long planned suit to break up the so called "steel trust" was begun here in the United States circuit court. It was the most sweeping anti-trust action ever brought by the department of justice.

The government asks not only for the dissolution of the United States Steel corporation, but for the dissolution of all constituents or subsidiary companies which are alleged to have combined in violation of the Sherman law to "maintain, or attempt to maintain, a monopoly of the steel business." There are thirty-six subsidiary corporations named as defendants.

J. Pierpont Morgan, John D. Rockefeller, Andrew Carnegie, Charles M. Schwab, George W. Perkins, E. H. Gary, John D. Rockefeller, Jr., Henry C. Frick, Charles Steele, James Gayley, William H. Moore, J. H. Moore, Edmund C. Converse, Percival Roberts, Jr., Daniel G. Reid, Norman B. Rem, P. A. Widener and William B. Palmer are named individually as defendants.

The United States Steel corporation, Carnegie Steel company, Carnegie company of New Jersey, Federal Steel company, National Steel company, American Steel and Wire company of New Jersey, National Tube company, Shelby Steel Tube company, American Tinplate company, American Sheet and Tinplate company, American Steel Hoop company, American Bridge company, Lake Superior Consolidated Iron mines, all of which were organized under the New Jersey laws, and the H. C. Frick Coke company, Tennessee Coal and Iron company and the Great Western Mining company are named as corporate defendants.

Hills Named as Trustees.

Louis W. Hill, James N. Hill, Walter J. Hill, E. T. Nichols and J. M. Gruher are named as trustees in connection with the corporation.

The steel corporation's lease of the Great Northern railway's ore properties, which the directors of the steel company formally decided to cancel, is alleged to be illegal. This action of the directors was taken but a few hours before the filing of the bill. The government acknowledges that it was advised of the steel corporation's intention in this respect, but states that under the terms of the lease no cancellation would be effective until Jan. 1, 1915, and there is no limit upon the amount of ore that can be taken out in the meantime.

Sensational allegations fairly topple over each other in the government's petition, which is an equity proceeding praying for injunction to stop continuance of the alleged monopoly and such other relief as the court may grant.

The steel corporation's acquisition of the Tennessee Coal and Iron company during the panic of 1907 is declared illegal and scathingly criticized. The petition declares that E. H. Gary and Henry C. Frick misled former President Roosevelt when they told him "that but little benefit will come to the steel corporation from the purchase."

"The president," it says, "was not made fully acquainted with the state of affairs in New York relevant to the transaction as they existed. If he had been fully advised he would have known that a desire to stop the panic was not the sole moving cause, but that there was also a desire and purpose to acquire control of a company that recently assumed a positive position of potential competition of great significance."

Threatened Financial Calamity.

"It is certain that the corporation availed itself of the embarrassment of Moore & Schley (New York brokers who had large holdings of Tennessee stock) at a most critical period and the hammering of the Tennessee stock and the threatening of a general financial calamity, to acquire the control of a competitor taking on a formidable aspect."

"The corporation thus greatly strengthened its control of the country's iron ore supply, its predominant position in the South's iron and steel trade eliminated a competitor and unlawfully acquired a power which is a menace to the welfare of the country, and should be destroyed."

Logic.

"What should be done in a case of drowning?" asked the timid man who was learning to swim.

"Well," replied the instructor, "I should think the natural thing would be to have a funeral."—Puck.

TAFT GUEST OF
BADGER STATEPresident Given Ovation From
Green Bay to Milwaukee.

GOVERNOR JOINS THE PARTY

McGovern Presides at Demonstration In Honor of Chief Executive at Oshkosh and Accompanies Him to Milwaukee—In Speaking at Appleton President Defends High Tariff Enjoined by Paper and Pulp Industries.

Milwaukee, Oct. 27.—Senator La Follette will have the Wisconsin delegation to the Republican national convention next year without any real show of a contest, but the electoral vote of the state will be cast for the Republican candidate for president, whoever he may be. This is the consensus of opinion of Wisconsin politicians, Democrats, Republicans, regular and irregular, and representatives of all factions of all parties and parts of parties, after President Taft's tour of the state, which reached its last lap at Milwaukee.

Governor F. E. McGovern, both in public addresses and in personal interviews, expressed the conviction that the Republican ticket, with any nominee, would have Wisconsin in the electoral college list next year.

The president has had a veritable ovation from Green Bay to Milwaukee, the one marinating fact that sticks out being the failure or refusal of federal officeholders to participate in the welcome to him. Former Representative Kuessermann and Representative Kopp joined the party at Green Bay and Representative Davidson joined it at Oshkosh. Governor McGovern also joined the party at Oshkosh, presided at the demonstration in the president's honor at Oshkosh and accompanied the party to Milwaukee.

Senator La Follette is in Washington and other congressmen and state and federal officials have additions to the biblical excuses for being absent. Even the most bitter partisans at this hour can but admit that the people of Wisconsin have been cordial to the point of enthusiasm in their greetings to the chief executive. It may be argued that the receptions have been nonpartisan, but the fact remains that every city and town visited has poured out a cheering throng to welcome Mr. Taft.

The president has borne no indifference to the Wisconsin citizens and voters. He opened his campaign at Appleton, where he went directly at the heart of the question of continuing the high protection now enjoyed by the paper and pulp industries. Some of the citizens of Appleton, directly or indirectly interested in the industry, had written the president a letter asking him to explain certain clauses and sections of the Payne-Aldrich tariff law and the proposed Canadian reciprocity agreement affecting the paper business.

The president answered the letter directly, frankly and fearlessly and explained every detail of the Canadian reciprocity proposition and the Payne-Aldrich tariff law so far as they affect the industry which is so largely represented in the Fox river valley. He quoted figures to show that the paper industry will not be hurt at all by the Payne-Aldrich bill or by the reciprocity measure, if Canada finally accepts it.

The crowds that greeted the president at Green Bay and Appleton were record breakers for those places, but they were comparatively small when contrasted with the throngs that poured out at Oshkosh and Fond du Lac. At Oshkosh, practically all of the business and professional men of the city either participated personally in the reception, at one point of another, or contributed to the universality of the welcome.

The president delivered his arbitration and peace address at Fond du Lac, declaring that he could talk on no other topic after his visit with General Bragg, who had had an experience in both the conquests of war and the conquests and triumphs of peace. The address was most enthusiastically received. The subject of arbitration, usually given but little attention by the average citizen, has become one of the president's best political speeches, in that, by his plain statement of the situation, those who have heard him have been taught to realize the importance of the question and its direct effect upon the pockets and principles of the people as a whole.

SALT LAKE ORDER STANDS

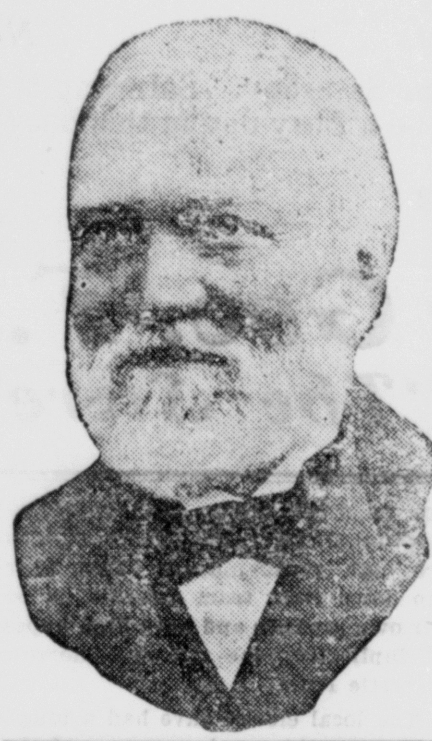

Commerce Court Rules Against Roads in Pacific Coast Cases.

Washington, Oct. 27.—At the conclusion of the arguments in the Pacific coast cases the commerce court declined to grant a temporary injunction in the Salt Lake case, as requested by the transcontinental carriers.

The interstate commerce commission issued an order requiring the transcontinental railways to adjust their rates to Utah and Nevada points so as to avoid discrimination in favor of Pacific coast terminals, to become effective Nov. 15.

ANDREW CARNEGIE.

One of the Defendants
in Steel Trust Litigation.

ings which accomplished more than written pools or agreements, which frequently were broken.

"It was understood and agreed," says the bill, "that they (the steel manufacturers represented at the meetings) were bound to protect one another, that to carry out this purpose their honor was at stake and that no one of them should act or fail to act except with a distinct and clear understanding that his honor was involved, and that this was more binding on him than any written or verbal contract. When bidden by the chief executive of the corporation they came at any time, from any distance, ready, willing and anxious to turn over to him and to his friends all that was in their minds and in their hearts concerning their own business."

Held Position of Influence.

Interlocking directorates through which those in power in the steel corporation held positions of influence on the directorates of other powerful corporations are mentioned as "a method more refined, more euphonious, but none the less more effective than pools."

"Through its directors thus distributed," says the government's petition, "the corporation is in direct touch with all of the large railroad and steamship companies of the United States, such powerful concerns as the Standard Oil company, the Pullman company, the International Harvester company and the Western Union Telegraph company, and with the overwhelming majority in money and power of the banks and trust companies of the United States. The possibilities of the power and the control that may thus be exerted over trade and commerce is incalculable."

"The power and control that have been exerted by the corporation, largely through the grasp of its tentacles thus thrown out upon the consumer, competitors and capital, is incompatible with the healthy commercial life of the nation."

STEEL TRUST WILL FIGHT

Statement of Man Connected With Morgan Interests.

New York, Oct. 27.—From one closely connected with the Morgan interests came this sharp and concise statement:

"I am not speaking officially, but you can say that we shall fight the government to the bitter end."

Francis Lynde Stetson, general counsel to the steel corporation, said that it was perhaps better that the dissolution proceedings had been instituted.

"It is better to know where we stand," he added, "than to have all this uncertainty—all these rumors and reports moving through the air."

JAMES J. HILL IS SILENT

Refuses to Discuss Suit Against the Steel Trust.

St. Paul, Oct. 27.—James J. Hill, chairman of the board of directors of the Great Northern railway, which corporation is named in connection with the suit instituted by the federal government asking for the dissolution of the so called steel trust, declined to be interviewed on the subject. He said he had nothing to say to the newspapers.

The petition filed by the government asks that the ore lease between the Great Northern railway and the Great Western Mining company be declared illegal.

ATHLETICS DEFEAT GIANTS

Philadelphia Wins World's Championship Baseball Series.

Philadelphia, Oct. 27.—In an exhibition of batting seldom seen in a premier baseball series the Philadelphia American league team defeated the New York Nationals in the sixth game of the series by the overwhelming score of 13 to 2, thus giving them the four necessary games out of the six played to carry off baseball's greatest honor and making the Philadelphia Americans champions of the world for the second successive season. It was more than a mere defeat for New York, it was a rout.

Ancestor Worship.

Worship of ancestors was the real practical religion of Egypt's primitive period in 4100 B. C.

HAS TAFT TOUR
WON THE WEST?Western Representatives Not
Agreed on This Point.

TWO VIEWS AS TO KANSAS.

Bristow Says State Will Be For La Follette—Campbell Equally Sure It Will Favor President—Will the Progressive Democrats Control Their Party?

By ARTHUR W. DUNN.

Washington, Oct. 27.—(Special.)—"Has Taft made a success and gained anything in the west?" That question, with variations, has been asked whenever men meet who are interested in national politics. It will be a question propounded to every man from the west from this time forward and the answers will be as different as the political attitude of the men who reply. Only a short time ago Senator Bristow made the emphatic statement that Kansas had not been changed by the president's trip through the state and that Kansas would send a La Follette delegation to the national convention. Soon afterward Congressman Phil Campbell, one of the two regulars in the congressional delegation, appeared in Washington and stated, with a positiveness that equalled the senator's words, that Kansas was for Taft and that he would have the delegation from the state.

Similar to 1896.

Comparisons are made showing that conditions in politics are similar to those of 1896. Then it was the silver question, now it is progressiveness. The silver element in the Democratic party predominated, and although there was a strong silver sentiment in the Republican party the gold crowd won, just as it is predicted the conservative element will win in that party again. The question is, Will the radical Republicans remain with their party in sufficient number to make that party triumphant? Then there is another uncertainty—the radical element in the Democratic party may not be able to control the coming convention as did the silver men in 1896. More than a year of active campaign work was done by the silver men to obtain control of the party. Some of the issues of that time are still alive. The money question overshadowed everything else then, and it has now disappeared.

Taliaferro Has Regrets.

Former Senator Taliaferro of Florida was always an admirer of Senator Bailey. "It is to be regretted," remarked Taliaferro, "that politics should take such a turn in this country that a man like Bailey is driven from the senate. I do not mean that he was forced to retire by conditions in Texas, but that he finds himself so far out of tune with the prevailing sentiment among men of his party that he cannot remain longer a member of the senate. It is a curious political condition."

Proud of Williams.

Many southern men believe that Senator Williams will become the actual leader of the Democrats in the senate. "The people of the south are proud of John Sharp Williams," said a man who has traveled over that section, "and his popularity is not confined to state lines. In one session in the senate he came to the front as the best representative of their ideas and interests and won the same recognition which he had obtained in the house. We look forward to the time when he will be the chosen minority leader, as he was when a member of the other body."

Irrigation Making Towns.

Men who have been accustomed to see towns grow slowly in the east are surprised to find thriving villages, towns and even embryo cities in that region once known as the "great American desert." "The growth of towns in that section is little short of marvelous," remarked a man of the east who has just returned from a tour of the west. "As soon as an engineering work is finished which provides water for farming these towns spring up almost like magic. They are all laid out in an attractive manner, always with a park in the center and with good streets and broad avenues."

Couldn't Happen in Washington.

Friends of Vice President Sherman are shocked at the story that he passed through a crowded corridor of a New York hotel and was recognized by only three people, one a Washington newspaper man and a man and his wife from a western city. The latter two could not call his name. That could not happen in Washington, especially if he were the smile which has given him the name of "Sunny Jim."

Want to See the President.

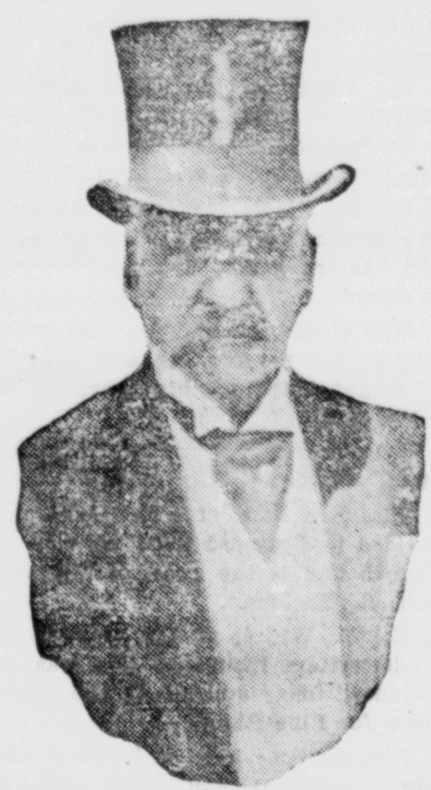

"People want to see the president," is an excuse which was given during the Roosevelt administration for the traveling of the chief executive about the country, and it is a fact that there is a demand for presidential visits which no president can supply. Once it becomes known that the president contemplates a trip and invitations of all kinds pour into the White House from all states, cities and towns. Delegations come here and present handsomely prepared invitations, believing they can tempt the president in that way if other means fail.

Everything in Stock.

"I want some lawn." "Yes'm. For a dress or for a front yard?"—Louisville Courier-Journal.

J. PIERPONT MORGAN.

Marshal Serves Him With
Copy of Bill of Equity.

© 1910, by American Press Association.

SERVING COPIES OF BILL

United States Marshal Gets to J. P. Morgan and Judge Gary.

New York, Oct. 27.—United States marshals were busy here serving copies of the bill in equity upon such of the individual defendants as could be found.

Judge E. H. Gary, chairman of the board of directors of the corporation, was one of those served.

"I do not intend to make any statement," said Judge Gary. "I was served with a copy of the bill."

J. Pierpont Morgan was another of the individual defendants served.

"I have nothing to say," was his only response to queries.

ACTION FEARED AT DULUTH

Believe Steel Corporation's Policy Has Been Good Thing.

Duluth, Oct. 27.—The report from Washington that application has been made to have the steel corporation and some of its subsidiaries dissolved was news to the local officials of the corporation and they declined to express an opinion as to the effect actual dissolution will have should it take place.

Duluth people view the proposed dissolution of the steel corporation with some apprehension and the same feeling obtains throughout the lake iron region. Before the steel corporation was organized the iron mining industry was subject to great fluctuations. There were periods of great prosperity to be followed by periods of great depression. But since the steel corporation has been in existence times have never become wholly bad in the mining regions of Minnesota and Michigan.

ONLY FOUR KNEW OF SUIT

Filing Is Like a Bombshell to Official Washington.

Washington, Oct. 27.—The filing of the suit was a bombshell to official Washington and it is said that only four men knew of it. Attorney General Wickersham, his secretary, Frank Cole and J. M. Dickinson, former secretary of war, the government's special counsel in the case, are three who were in the secret and the fourth, it is presumed, was the president of the United States.

Special agents of the department of justice have been at work on the case gathering evidence at various times during last three years. It was said at the department of justice that this evidence had been supplemented by some of the testimony given before the Stanley committee of the house of representatives, which has been conducting an investigation into the steel corporation.

ORGANIZATION OF BIG TRUST

Charles M. Schwab Claims to Have Given Morgan the Idea.

New York, Oct. 27.—The United States Steel corporation was organized in 1901 under the financial management of J. P. Morgan & Co., and began its corporate existence under the laws of New Jersey on April 1, 1901. Charles M. Schwab, formerly Andrew Carnegie's right hand man, and first president of the corporation, is said to have first suggested the idea, having broached it, according to his own testimony before the Stanley steel investigating committee, at a dinner held in New York, at which J. P. Morgan, Mr. Carnegie, H. C. Frick, E. H. Harriman, Henry Phipps and other prominent financiers and steel men were present.

Threshing Engineer Fatally Hurt.

Belgrade, Minn., Oct. 27.—George Harris of Antonville, seven miles east of here, an experienced threshing engineer, met with a fatal accident while backing his engine to hitch to a separator. The engine accidentally came in such close contact with the separator that Harris was crushed.

Eight in Hyde Jury Box.

Kansas City, Oct. 27.—The entire venire summoned in the case of Dr. B. C. Hyde, charged with the murder of Colonel Thomas H. Swope, was exhausted. Eight men now have been chosen tentatively for the jury.

PICK WILSON AS
NEXT PRESIDENTTRUNK LINES WILL
FIGHT THE MILLERSBitterly Oppose Lower Lake and
Rail Freight Rates.

Buffalo, N. Y., Oct. 27.—The Eastern and Western trunk lines will fight to the finish the efforts of the North western milling interests to obtain for Minneapolis and surrounding points lower lake and rail freight rates to the Atlantic seaboard is said to have been indicated at a meeting of the railroads' traffic officials here when proposed tariffs for 1912 were discussed.

It is said that the officials, among whom were vice presidents and general managers, tentatively agreed that if they are sustained by the interstate commerce commission in the 11 cents per hundred pounds from Buffalo to New York city they will continue the 23-cent differential, against which the milling interests are combating so vigorously.

Another meeting will be held in Buffalo late in November, when there will be framed the 1912 lake and rail tariffs under discussion. This was announced by C. C. McCain, president of the Trunk Line association, who was chairman of the session.

Buffalo will benefit from the railroads' stand in the flour rate controversy if the Minneapolis millers are sincere in the statements attributed to them. The millers are said to have declared that unless reduced lake and rail rates could be obtained they would be forced to move to Buffalo. But the officials who were here scoffed at the idea of the millers being forced from Minneapolis to Buffalo by the 23-cent rate.

CAMPAIGN SECRETS WANDER

Committee Still on Trail of Stephen's Mysterious Trunk.

Milwaukee, Oct. 27.—The United States senate committee, investigating the election of Senator Isaac Stephenson, failed to solve the mystery of the trunk, which is said to contain the documents used in the senator's \$107,000 campaign for re-election. Although four hours were spent in examining witnesses as to the wanderings of the trunk, the contents were not revealed.

It was shown that the senator's papers had gone through the following experiences:

Packed in a pine box in 1908 and shipped from Milwaukee to the senator's home at Marinette, Wis.

Taken in 1909 across the river to Menominee, Mich., out of reach of the state investigating committee.

Sent back to Marinette.

Transferred to gunny sacks and a suit case and carried by automobile at night sixty miles to Wells, Mich.

Put in an old steamer trunk and shipped back to Milwaukee.

Reciprocity.

"Bridget," said Mrs. Grouchey, "I don't like the looks of that man who called to see you last night."

"Well, well!" replied Bridget. "Ain't it funny, ma'am? He said the same about you."

GRAIN AND PROVISION PRICES

Duluth Wheat and Flax.

Duluth, Oct. 26.—Wheat—To arrive on track—No. 1 hard, \$1.11½; No. 1 Northern, \$1.10½; No. 2 Northern, \$1.07½; Dec., \$1.09½; mixed, \$1.07½; On track and in store, \$2.25½; to arrive, \$2.27; Dec., \$2.24.

Wisconsin Democrats Acclaim
New Jersey Governor.

MAKES ADDRESS AT MADISON

La Follette Republicans Join in Honoring Woodrow Wilson and John A. Aylward Creates Demonstration When He Says Wisconsin Is Being Honored by the Presence of the Present and Next President.

Madison, Wis., Oct. 27.—"I do not recognize any difference between my own principles and the principles of the progressive Republicans," announced Governor Woodrow Wilson of New Jersey in an address before Democrats and La Follette Republicans here. He was answered by many of the progressive Republicans present with the assurance that if President Taft was renominated Wilson would carry Wisconsin.

The New Jersey executive broadly hinted that such a fusion of Democrats and progressive Republicans with a platform based on their common hopes would be met with acclaim by his followers.

"I understand the two have become sadly mixed in Wisconsin," Governor Wilson continued. "I understand the Republicans have had to make drafts on the Democrats to carry their measures through and win their elections. That means labels are wearing off and you have to examine their insides to see what they really are."

"And now we propose that we watch our insides and get together."

The Republicans present applauded and listened, apparently with approval, to his plea that big business—the special interests—get together with the people instead of warring with them. "The great problem in politics is 'get together,'" is the way he summarized it.

Woodrow Wilson was acclaimed the next president of the United States by Democrats of Wisconsin. The governor, who was his guest at a rally held in the university gymnasium, spoke on the present trend in the field of politics.

There was a demonstration when the toastmaster, Attorney John A. Aylward of this city, said:

"Wisconsin is favored of the gods in that the president of the United States is within her borders and in that the next president of the United States is also among us."

Governor Wilson declared the Democratic party is in the midst of a great struggle to wrest control of the country from special interests.

PAYNE TARIFF RATES LOWER

Treasury Statement Shows Average Decrease of 4.79 Per Cent.

Washington, Oct. 27.—The treasury department statement regarding receipts from customs duties under the present tariff law and comparing these receipts with receipts under the Dingley law proves to be on investigation, a document showing by official figures that the present tariff has resulted in lower duties. Any politician who starts the argument that the Aldrich-Payne tariff does not show a revision downward is thus brought face to face with these official figures of the treasury department.

The treasury statement claims that two years' operation of the new tariff shows a decrease in the average duty of 4.79 per cent. The claim of the insurgents and Democrats has been that the new tariff increased rates from 10 to 20 per cent and frequently many times that on single articles.

STEEL TRUST TAKES ACTION

Directors Decide to Cancel Great Northern Ore Lease.

New York, Oct. 27.—At a special meeting the directors of the United States Steel corporation decided to cancel the corporation's lease of the Great Northern ore properties. The directors also adopted resolutions recommending to the directors of the Duluth, Missabe and Northern Railway company a reduction in freight rates on iron ore from points in the Mesabian range to Duluth to a figure not exceeding 60 cents a ton, and to Duluth and Iron Range Railway company a similar reduction on the Iron Range route from Vermilion and Mesabian range to Duluth and Two Harbors, Minn.

Boy Burned to Death.

Rhineland, Wis., Oct. 27.—Word comes from Cavour of the burning to death of Archie Hies, a seven-year-old boy, in a fire which destroyed the hotel and saloon building of Frank Hies. A woodsman is missing and is thought to have perished in the fire. Other occupants of the building had to jump from the second story windows.

Another Heiress Missing.

New York, Oct. 27.—In circumstances almost paralleling those in which Miss Dorothy Arnold was lost to her relatives a year ago, Miss Consuelo Fajardo, nineteen years old, a Puerto Rican heiress, has been missing from the Hotel Felix Portland here since Oct. 18, when she walked out, telling persons whom she met that she was going to buy a magazine.

INDIGESTION VANISHES

A little Diapiesin really does make your out-of-order Stomach feel fine in about five minutes
Take your sour out of order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach, it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.
The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is a lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.
If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.
Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.
Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

Saunders-Fricker

Edgar Saunders, the youngest son of Mr. and Mrs. J. P. Saunders, was married Thursday afternoon at two o'clock to Miss Emma A. Fricker, daughter of Mr. and Mrs. George Fricker. The ceremony was performed by Rev. J. R. Alten, pastor of St. Paul's Episcopal church, at his apartments in the Ransford hotel.
The wedding came as a distinct surprise, for the families and friends of the bridal couple were not aware of it until the happy couple gave out the information. They left on the afternoon train for Eveleth where the groom is employed as a plumber by the Northern Heating & Plumbing Co.
The Dispatch joins with the many friends of the couple in wishing them all possible happiness and prosperity.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.
F. J. CHENEY & CO., Toledo, O.
Take Hall's Family Pills for constipation.

ARE MICROBES IN YOUR SCALP?

It Has Been Proved That Microbes Cause Baldness.
Professor Uuna of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebun, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles, and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.
We have a remedy which will, we honestly believe, remove prodromic circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.
We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.
It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.
We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us and it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store—The Rexall Store Johnson's Pharmacy, 222 7th St. S.

MUSIC AND DRAMA

At The Grand

The Grand puts on a special bill
Friday and Saturday evenings. There
will be songs by the new resident
manager, Thomas C. Brown, of Sioux
City, Iowa, and by H. Howard. Mr.
Brown also appears as the lecturer
of the moving pictures.

One of the best films to be shown
this evening is the one entitled "The
Cow Boy and the Outlaw." It is
intensely dramatic and gives a mag-
nificent sketch of western life. "Mutt
and Jeff" are shown in a series of
amusing complications with the Black
Hand society, but the dark conspira-
tors get the worst of the hand and
Mutt and Jeff live through it to ap-
pear in a brand new specialty next
week.

"The Fall of Troy," one of the
world's greatest motion pictures, cost-
ing \$30,000 to produce, will be shown
at The Grand next week.

At The Empress

Manager Laymon, who has offered
his theatre for more benefits than
many of the older playhouses, will
give benefit performances Monday
evening, October 30, at his popular
photo play house. Every cent above
actual expenses will go to the poor,
unfortunate flood sufferers of Black
River Falls, Wis. They are in deep-
est distress and the public, by buying
a ticket at 25 cents, can see a good
show and at the same time help their
brothers in misfortune in Wisconsin.

A good program is presented at The
Empress this week and the films are
up to date. Manager Laymon has
made many improvements to his thea-
ter and his first care has been to as-
sure the safety of every patron of
the house. His house is well equip-
ped and it is safe to say it is one
of the safest playhouses in the north-
west.

At the Opera House

A specially fine program of mov-
ing pictures will be shown at the
Opera House tonight. Manager Brown
stating that they will excel anything
as yet shown. An interesting comic,
entitled "Making Mother Over," an
animated newspaper of great happen-
ings and doings, or the world in a
glance, is the best description of the
current event film, and a strong war
time dramatic reel, "The Special
Messenger," makes up the program.
The usual fine musical program will
be given. Starting with this even-
ing at 7:30 p. m., and concluding
at 10:15, permitting no intermissions
between shows. This will afford an
opportunity of the patrons of the
house to drop in at any time during
the evening and see a complete show.

SPECIAL CLOAK SALE

Black broadcloth cloaks, Skinner
satin lining, at sixteen (\$16.00) dol-
lars. All Sizes. Black only.

INDIGESTION VANISHES

A little Diapiesin really does make
your out-of-order Stomach feel
fine in about five minutes

Take your sour out of order stom-
ach—or maybe you call it indigestion,
Dyspepsia, Gastritis or Catarrh of
Stomach, it doesn't matter—take your
stomach trouble right with you to
your Pharmacist and ask him to open
a 50-cent case of Pape's Diapiesin
and let you eat one 22-grain Tri-
angle and see if within five minutes
there is left any trace of your former
misery.

The correct name for your trouble
is Food Fermentation—food souring;
the digestive organs become weak,
there is a lack of gastric juice; your
food is only half digested, and you
become affected with loss of appetite,
pressure and fullness after eating,
vomiting, nausea, heartburn, griping
in bowels, tenderness in the pit of
stomach, bad taste in mouth, consti-
pation, pain in limbs, sleeplessness,
belching of gas, biliousness, sick
headache, nervousness, dizziness or
many other similar symptoms.

If your appetite is sickle and nothing
tempts you, or you belch gas, or if
you feel bloated after eating, or your
food lies like a lump of lead on your
stomach, you can make up your mind
that at the bottom of all this there is
but one cause—fermentation of undig-
ested food.

Prove to yourself in five minutes
that your stomach is as good as any;
that there is nothing really wrong.
Stop this fermentation and begin eat-
ing what you want without fear of
discomfort or misery.

Almost instant relief is waiting for
you. It is merely a matter of how
soon you take a little Diapiesin.

Saunders-Fricker

Edgar Saunders, the youngest son
of Mr. and Mrs. J. P. Saunders, was
married Thursday afternoon at two
o'clock to Miss Emma A. Fricker,
daughter of Mr. and Mrs. George
Fricker. The ceremony was per-
formed by Rev. J. R. Alten, pastor of
St. Paul's Episcopal church, at his
apartments in the Ransford hotel.

The wedding came as a distinct
surprise, for the families and friends
of the bridal couple were not aware
of it until the happy couple gave out
the information. They left on the
afternoon train for Eveleth where
the groom is employed as a plumber
by the Northern Heating & Plumbing
Co.

The Dispatch joins with the many
friends of the couple in wishing them
all possible happiness and prosperity.

REIGHT RATES HIGH ON SPUDS

Brainerd to Indianapolis is 21 Cents,
Rush City to Columbus, Same
Distance, is 13 Cents

HIGH RATES BAR SHIPMENTS

R. Richards, Who Wished to Ship
Potatoes, Learns of Freight
Conditions

When E. R. Richards read about
the efforts which Mayor Shank was
making to supply the people of In-
dianapolis with potatoes he wrote
in that Crow Wing county, Minne-
ta, raised the best spuds in the
world and they were selling here at
10 to 45 cents per bushel.

Mayor Shanks, who has been mak-
ing a determined effort to break the
legged ring of the commission men
who are holding up the price of po-
tatoes in Indianapolis and who has
purchased several car loads of the
tubers and sold them to the people
at cost, handed Mr. Richards' letter to
the Indianapolis News and the Chi-
cago Record Herald for publication,
and the communication was printed.
The result was that Mr. Richards
was flooded with letters of inquiry
from all parts of Indiana, Illinois
and some parts of Iowa. Parties
wanted the potatoes, but as the
freight rates were pretty high from
his point, not many orders came in.
In some sections of Illinois the pota-
to crop was a total failure. Farmers
did not even get their seed back
from their planting.

And now we reach the point of
freight rates. The rate from Brainerd
to Indianapolis is 21 cents, as
given Mr. Richards.

From Rush City to Columbus, In-
diana, the same distance, it is 13
cents. Rush City, Anoka and Prince-
ton are all favored in rates.

Brainerd, with cars of potatoes
to ship, cannot expect to compete
with three towns favored with the
cheap rate. Indianapolis' mayor
would take a carload this minute if
the freight rate from Brainerd was
3 cents.

Something should be done immedi-
ately about getting a rate equaling
that of the towns mentioned. It is
of little use to wait and wait and
defer action on such an important
matter and maybe get a reduction of
the freight rate next year. What
should be done is to get the rate now
when there is an overwhelming de-
mand for potatoes and when we have
the supply to fill such a demand.
A decent freight rate just at this
moment means everything to our
farmers and merchants.

In this regard the following letters

STOCK MARKET DEMORALIZED

Special to The Dispatch:

New York, Oct. 27.—The stock
market was demoralized as a result
of the suit of the government to dis-
solve the alleged Steel Trusts.

The first sales were made at 53 and
1-8, a decline of five points from last
night's closing. Preferred shares fell
off four points.

The entire list of stocks on ex-
change, including other industrial
stocks and standard railway shares,
was affected.

received by Mr. Richards are of in-
terest. One dated October 20 from
George I. Winnans, a grocer of Co-
lumbus, Ind., states: "Your freight
rate is certainly too high. We re-
cently received a car from Princeton,
Minn., that cost only 13 cents per
bushel.

"We have two cars from Minnesota
due today with the same rate of 13
cents that cost us here 64 cents. We
are quite anxious to buy potatoes
from your state and will be able to
handle several cars at once if you
can secure the right railroad rate
from your point of shipment."

In another letter from the same
groceryman of Columbus, Ind., dated
October 23, he states: "Just received
a car of potatoes from Rush City,
Minn., at 13 cents freight."

"Are you able now to give us a
freight rate from your city? We
are on the market for from two to
five cars in the next two weeks."

Here is the demand for potatoes,
the cash to pay for them, the town
of Brainerd and the county of Crow
Wing flooded with potatoes, but the
Northern Pacific railroad acting as
an effective barrier with its prohibi-
tive freight rate of 21 cents, when
Princeton, Anoka and Rush City,
great potato shipping points, are
favored with the 13 cent rate.

How long will Brainerd and Crow
Wing county submit to this discrimi-
nation?

FILES CURED IN 6 TO 14 DAYS
Your druggist will refund money if PA-
ZO OINTMENT fails to cure any case of

Piles in 6 to 14 days. 50c. mwf

A Medicine That Gives Confidence
Is Foley's Honey and Tar Compound.
Mrs. T. J. Adams, 522 No. Kansas
Ave., Columbus, Kas., writes: "For
a number of years my children have
been subject to coughs and colds. I
used Foley's Honey and Tar Com-
pound and found that it cured their
coughs and colds, so I keep it in the
house all the time." Refuse substi-
tutes. For sale by all druggists.

FIRE PREVENTION IS DISCUSSED

Gathering of Business Men at Com-
mercial Club Listens to In-
surance men and Inspectors

MUCH INTEREST IS AROUSED

"The Way to Lessen Fire Insurance
is To Have Less Fires," Said
Secretary Law

Twenty inspectors of the Minne-
sota State Fire Prevention association
covered the city of Brainerd yester-
day, examining its alleys, its pub-
lic buildings, opera house, moving
picture shows, its homes and factories,
its streets and vacant lots, dump piles,
brewery and other places and famil-
iarized themselves thoroughly with
local conditions. This information
gathered has all been filed and class-
ified.

A public meeting was held at the
Commercial Club in the evening and
addresses were delivered by the mem-
bers of the association on fire pre-
vention and fire waste, both matters
of vital importance to Brainerd.

Among the visitors present were
Walter I. Fisher, head of the rating
bureau of Minneapolis, which supplies
the statistics to all insurance com-
panies doing business in the state; W.
O. Chamberlain, state agent of the
Commercial Union Fire Insurance Co.;
A. R. Gress, state agent of the Insur-
ance Company of North America;
David E. Jones, state agent of the Ni-
agara Fire Insurance Co.; E. A. Davis,
state agent of the Security Insurance
Co.; A. Stinson, president of the State
Fire Protection Association and sec-
retary of the Minneapolis Fire & Marine
Insurance Co.; B. K. Cowles, state
agent of the Hamburg Bremen Insur-
ance Co.; E. C. Bowe, state agent of
the Springfield; F. H. Sabin, state
agent of the Philadelphia Underwrit-
ers; Louis L. Law, secretary of the
State Fire Prevention Association; D.
D. Daly, special agent of the St. Paul
Fire and Marine Insurance Co., and
W. M. Higley, state agent of the Han-
over Fire Insurance Co., all of Minne-
apolis.

Carl Zapffe, president of the Com-
mercial Club, welcomed the gentle-
men to Brainerd and introduced the
first speaker, President Stinson.

"To cut down the fire waste and to
prevent fires," said Mr. Stinson, "are
the primary objects of our association
known as the State Fire Prevention
Association. You have had some ex-
perience with fires, I believe, and
should be interested in the subject as
it vitally concerns every man in your
town: The national organization of
which our association is a branch,
was organized 15 years ago by a body
of engineers in Chicago. Our organ-
ization in Minnesota is a new one
but we have had wonderful success
in awakening people to the true con-
ditions of things."

The next speaker was Louis L. Law,
the secretary of the State Fire Pre-
vention Association. He said in
part:

"I am going to start out by mak-
ing a statement that will strike a
sympathetic chord in the mind of
every property holder here tonight,
and that is this: Fire Insurance Rates
Are Too High. No matter how poorly
informed a policy holder may be
on fire insurance rates in general,
you will find him ready with the
statement that his rate is excessive.

"Some time ago an estimator was
visiting a small town for the pur-
pose of revising the estimates, which
had become out of date owing to the
growth of the town. While taking
his notes in an alley way he was
accosted by the owner of one of the
buildings, who, on learning what was
going on, protested that his rate was
too high.

"What is your rate?" asked the
estimator. The man hesitated a mo-
ment and finally admitted that he
did not know how much his insurance
cost. Now, the funny part of it all
is that the man was right, and I do
not know what his rate was any more
than he did.

"But I do know this: 90 per cent,
if not all the rates in the United
States, are too high and a great deal
too high. What makes them high?
The insurance companies? Not the
insurance companies, but the great,
prosperous, careless American public.

"The rates move up and down in

More new coats today including The very Prettiest of New Polo Coats

If you have not seen the new polo coats we now have, you have yet to see the prettiest and most practical polo coats shown this year. You will find these to be made of a better quality of cloth than any you have seen—every thread wool and made to protect you from the cold.

Besides these we received a pretty lot of plaid back coats at popular prices.

L. M. KOOP'S

Closes Saturday Night

and his case was finally turned over
to the State Fire Marshal's office for
attention.

"Just a word as to the State Fire
Marshal, who has been in the public
prints a good deal lately. The office
of State Fire Marshal means more
than it formerly did, owing to the
enactment of a State Fire Marshal
law last winter, and that official is
now equipped with funds and clothed
with authority sufficient to make his
power felt in the inspection of prem-
ises, with a view to the prevention of
fire, and the investigation of circum-
stances surrounding the same after
a fire occurred.

"The most hearty co-operation ex-
ists between the Fire Marshal's office
and the State Fire Prevention Asso-
ciation, as both realize that they
serve a common cause: The reduc-
tion of fire waste, which means a
lessening of insurance rates, for
when all is said and done, the whole
subject is summed up in these few
words:

"The way to lessen the rates is to
have fewer fires. The way to be
clean is to clean up and stay clean.
We have told you how and where to
get busy and by the time we get
through checking you up, you will
have a clean city. If not, then you
will a little later on when the Fire
Marshal gets through with you.

"Every one of you should keep his
eye on his neighbor and give him a
little jolt now and then when he sees
the rubbish piling up between the
wooden buildings, or papers accumu-
lating in basements, stairways or in
elevator shafts. We must make a
start somewhere. One man can't af-
fect the fire waste very much, he be-
comes so careful, but when a commu-
nity gets bitten by the 'fire prevention
bug,' and when town after town have
been awakened to the truth that fewer
fires means lower rates, Minnesota
will be a still better state to live in
than it is today, and that's going
some."

Walter I. Fisher, of the Minne-
apolis, underwriters, then gave a
blackboard talk and his figures were
very interesting. "In all sciences
and in all walks of life," said Mr.
Fisher, "we find a standard. There
are the standards of weight and mea-

surement, the money standard, the
standard man in physical culture,
standard rates in life insurance and
the standards in fire insurance. In
fire insurance we have the standards
of lighting and heating, acetylene
generators, electrical and steam fire
pumps, fire extinguishers, fire doors,
shutters, windows, etc.

"In estimating the fire insurance
rate such things as the class of build-
ing, its construction, protection, oc-
cupancy and exposure are considered.
The class is divided into the private,
commercial, public and special. The
construction may be free burning,
moderate or non-combustible. Its
protection may be public or private.
Its occupancy is divided into cause,
combustibility and damageability,
with cause subdivided into heating
and lighting devices. The exposure
of the building is again governed

by its radiation, absorption and trans-
mission, being subdivided into small,
ordinary and abnormal. Each one
of these points is taken into consid-
eration when insurance rates are com-
piled.

"The condition of your pumping
plant affects the rates. You have a
direct pumping system. Your rate
is higher than Red Wing which has
a pumping plant and a reservoir or
gravity system. The width of your
streets, your fire ordinances and the
manner in which you enforce these
cuts a figure in the compilation of
the rates.

"You have a hotel man in your
city who complained of an increase
in rates and I find on inspection that
his place has no standard fire doors,
nor chemical fire extinguishers. The
standpipe is not equipped with hose

REIGHT RATES HIGH ON SPUDS

Brainerd to Indianapolis is 21 Cents,
Rush City to Columbus, Same
Distance, is 13 Cents

HIGH RATES BAR SHIPMENTS

R. Richards, Who Wished to Ship
Potatoes, Learns of Freight
Conditions

When E. R. Richards read about the efforts which Mayor Shank was making to supply the people of Indianapolis with potatoes he wrote in that Crow Wing county, Minnesota, raised the best spuds in the world and they were selling here at 45 cents per bushel.

Mayor Shanks, who has been making a determined effort to break the alleged ring of the commission men who are holding up the price of potatoes in Indianapolis and who have purchased several car loads of the spuds and sold them to the people at cost, handed Mr. Richards' letter to the Indianapolis News and the Chicago Record Herald for publication, and the communication was printed. The result was that Mr. Richards was flooded with letters of inquiry from all parts of Indiana, Illinois and some parts of Iowa. Parties wanted the potatoes, but as the freight rates were pretty high from this point, not many orders came in. In some sections of Illinois the potato crop was a total failure. Farmers did not even get their seed back from their planting.

And now we reach the point of freight rates. The rate from Brainerd to Indianapolis is 21 cents, as given Mr. Richards.

From Rush City to Columbus, Indiana, the same distance, it is 13 cents. Rush City, Anoka and Princeton are all favored in rates.

Brainerd, with cars of potatoes to ship, cannot expect to compete with three towns favored with the cheap rate. Indianapolis' mayor would take a carload this minute if the freight rate from Brainerd was 3 cents.

Something should be done immediately about getting a rate equaling that of the towns mentioned. It is of little use to wait and wait and defer action on such an important matter and maybe get a reduction of the freight rate next year. What should be done is to get the rate now when there is an overwhelming demand for potatoes and when we have the supply to fill such a demand. A decent freight rate just at this moment means everything to our farmers and merchants.

In this regard the following letters

STOCK MARKET DEMORALIZED

Special to The Dispatch:
New York, Oct. 27—The stock market was demoralized as a result of the suit of the government to dissolve the alleged Steel Trusts.

The first sales were made at 53 and 1-8, a decline of five points from last night's closing. Preferred shares fell off four points.

The entire list of stocks on exchange, including other industrial stocks and standard railway shares, was affected.

received by Mr. Richards are of interest. One dated October 20 from George I. Winnans, a grocer of Columbus, Ind., states: "Your freight rate is certainly too high. We recently received a car from Princeton, Minn., that cost only 13 cents per bushel."

"We have two cars from Minnesota due today with the same rate of 13 cents that cost us here 64 cents. We are quite anxious to buy potatoes from your state and will be able to handle several cars at once if you can secure the right railroad rate from your point of shipment."

In another letter from the same groceryman of Columbus, Ind., dated October 23, he states: "Just received a car of potatoes from Rush City, Minn., at 13 cents freight."

"Are you able now to give us a freight rate from your city? We are on the market for from two to five cars in the next two weeks."

Here is the demand for potatoes, the cash to pay for them, the town of Brainerd and the county of Crow Wing flooded with potatoes, but the Northern Pacific railroad acting as an effective barrier with its prohibitive freight rate of 21 cents, when Princeton, Anoka and Rush City, great potato shipping points, are favored with the 13 cent rate.

How long will Brainerd and Crow Wing county submit to this discrimination?

FIRE PREVENTION IS DISCUSSED

Gathering of Business Men at Commercial Club Listens to Insurance men and Inspectors

MUCH INTEREST IS AROUSED

"The Way to Lessen Fire Insurance is To Have Less Fires," Said Secretary Law

Twenty inspectors of the Minnesota State Fire Prevention association covered the city of Brainerd yesterday, examining its alleys, its public buildings, opera house, moving picture shows, its homes and factories, its streets and vacant lots, dump piles, brewery and other places and familiarized themselves thoroughly with local conditions. This information gathered has all been filed and classified.

A public meeting was held at the Commercial Club in the evening and addresses were delivered by the members of the association on fire prevention and fire waste, both matters of vital importance to Brainerd.

Among the visitors present were Walter I. Fisher, head of the rating bureau of Minneapolis, which supplies the statistics to all insurance companies doing business in the state; W. O. Chamberlain, state agent of the Commercial Union Fire Insurance Co.; A. R. Gress, state agent of the Insurance Company of North America; David E. Jones, state agent of the Niagara Fire Insurance Co.; E. A. Davis, state agent of the Security Insurance Co.; A. Stinson, president of the State Fire Protection Association and secretary of the Minneapolis Fire & Marine Insurance Co.; B. K. Cowles, state agent of the Hamburg Bremen Insurance Co.; E. C. Bowe, state agent of the Springfield; F. H. Sabin, state agent of the Philadelphia Underwriters; Louis L. Law, secretary of the State Fire Prevention Association; D. D. Daly, special agent of the St. Paul Fire and Marine Insurance Co., and W. M. Higley, state agent of the Hancock Fire Insurance Co., all of Minneapolis.

Carl Zapffe, president of the Commercial Club, welcomed the gentlemen to Brainerd and introduced the first speaker, President Stinson.

"To cut down the fire waste and to prevent fires," said Mr. Stinson, "are the primary objects of our association known as the State Fire Prevention Association. You have had some experience with fires, I believe, and should be interested in the subject as it vitally concerns every man in your town. The national organization of which our association is a branch, was organized 15 years ago by a body of engineers in Chicago. Our organization in Minnesota is a new one but we have had wonderful success in awakening people to the true conditions of things."

The next speaker was Louis L. Law, the secretary of the State Fire Prevention Association. He said in part:

"I am going to start out by making a statement that will strike a sympathetic chord in the mind of every property holder here tonight, and that is this: Fire Insurance Rates Are Too High. No matter how poorly informed a policy holder may be on fire insurance rates in general, you will find him ready with the statement that his rate is excessive."

"Some time ago an estimator was visiting a small town for the purpose of revising the estimates, which had become out of date owing to the growth of the town. While taking his notes in an alley way he was accosted by the owner of one of the buildings, who, on learning what was going on, protested that his rate was too high."

"What is your rate?" asked the estimator. The man hesitated a moment and finally admitted that he did not know how much his insurance cost. Now, the funny part of it all is that the man was right, and I do not know what his rate was any more than he did."

"But I do know this: 90 per cent, if not all the rates in the United States, are too high and a great deal too high. What makes them high? The insurance companies? Not the insurance companies, but the great, prosperous, careless American public. The rates move up and down in

where

FIRE PREVENTION IS DISCUSSED AT MEETING

(Continued from page 3)

and there is no pressure. Such points
affect the rate of insurance.

"From 1893 to 1910 there was col-
lected in Brainerd in fire insurance
premiums, \$549,594. Deduct from
this the average expense of 40 per
cent, or \$219,837 and you have \$329,-
757 to pay losses incurred in Brainerd
amounting to \$569,834. Here is a
deficiency of \$240,077."

Many questions were asked Mr.
Fisher, who was really a veritable
encyclopedia of information. Min-
neapolis has a good balance on the
side of premiums in the last 18 years
but in 1910 its premiums were \$1,-
963,618 and its losses over \$2,000,-
000. Brainerd's premiums in 1910
were \$36,662.28 and its losses \$19,-
219.53, leaving a net balance of \$17,-
452.75 on the right side of the in-
surance ledger.

Fire Marshall Keller, of St. Paul,
sent his regrets in not being able to
be present and delegated W. O.
Chamberlain to speak in his behalf
and Mr. Chamberlain filled the posi-
tion very creditably. He read the
Fire Marshall law, explained its duties
and pleaded for better observance of
the law. He referred to the Dumas
case and its moral effect. He said
there was too much paper flying a-
round in the block bounded by Front
and Laurel, 6th and 7th and the
block immediately west of that. He
said that Red Wing, a town of less
people than Brainerd, had a paid fire
department.

"If you had a fire at the brewery
and your whole force is there, what
would you do with your single line
of hose if a fire sprang up in the main
part?"

He pleaded with the people to clean
their alleys and basements and to do
everything possible to avoid fires.
If no attention were paid to these
warnings, why then the Fire Marshal
would come and he would enforce
the law with no uncertain hand.

A reference was made to Brainerd's
fire ordinances which have "hung
fire" for a year and a half and have
not been adopted by the council. He

suggested referring them to a special
committee of experts of the associa-
tion who would pass on them and at
no expense to Brainerd, and who
would suggest improvements.

"And when you have ordinances,"
said Mr. Stinson and Mr. Chamber-
lain, "enforce them."
More questions were asked by those
present and the meeting closed with
the parting injunction from the in-
surance men and association members
that Brainerd should be careful about
having any more fires.

After exposure and when you feel
a cold coming on, take Foley's Honey
and Tar compound. It checks and
relieves. Use no substitutes. The
genuine in a yellow package always.
For sale by all druggists.

An Ice Poultice.

In many cases of inflammation an
ice poultice is a very useful applica-
tion. It is made in this way: Spread
a layer of linseed meal three-quarters
of an inch thick on a piece of cloth
and upon the meal put at intervals
lumps of ice about the size of a mar-
ble. Sprinkle meal over the ice and
cover all with the cloth, turning the
edges over. In this way the ice will
last much longer than it otherwise
would, and the poultice will be quite
comfortable.

YOU CANNOT JOCKEY

A HORSE

with poor feed. He knows its
quality as well if not better than
you do. Give a some of our
feed and grain and see how he
will go into it. See him pick up
in condition, too, after you have
fed him with it a few days. Good
feeding pays, and the use of our
feed and grain will prove it.

CUYUNA-DULUTH IRON CO.

Shares one dollar (par value fully paid and non-assessable) one tenth cash and one tenth per month. The company now has two properties that they are drilling and are getting good iron ore in both. They have bought six forty-acre tracts outright and have two drills running and are going to put on another one. The shares that are being sold are for the purpose of paying for exploration work and buying fee interests in iron lands.

Call and look over my list of large and small farms and lake frontages, houses and nice building lots. Do not wait, you can buy now much cheaper than you can in the spring.

Teaching Him a Lesson.

Mrs. Poorly—The grocer called here today with a bill nearly a year old. He was very impudent about it. Mr. Poorly—Impudent? was he? I'll teach him a lesson. I'll make him wait awhile for his money.—Exchange

POOR SLEEPER

Healthy children sleep soundly. Any child that does not sleep is not healthy. Sleeplessness is caused by undigested substances which generate poisons. Kickapoo Worm Killer (the nice-tasting candy lozenges) produces sound, restful sleep by cleaning out poisons and impurities. It is a great child's tonic and strength-builder. Price, 25c, sold by druggists everywhere.

FIRE PREVENTION IS**DISCUSSED AT MEETING**

(Continued from page 3)

and there is no pressure. Such points affect the rate of insurance.

"From 1893 to 1910 there was collected in Brainerd in fire insurance premiums, \$549,594. Deduct from this the average expense of 40 per cent, or \$219,837 and you have \$329,757 to pay losses incurred in Brainerd amounting to \$569,834. Here is a deficiency of \$240,077."

Many questions were asked Mr. Fisher, who was really a veritable encyclopedia of information. Minneapolis has a good balance on the side of premiums in the last 18 years but in 1910 its premiums were \$1,963,618 and its losses were \$2,000,000. Brainerd's premiums in 1910 were \$36,662.28 and its losses \$19,219.53, leaving a net balance of \$17,442.75 on the right side of the insurance ledger.

Fire Marshall Keller, of St. Paul, sent his regrets in not being able to be present and delegated W. O. Chamberlain to speak in his behalf and Mr. Chamberlain filled the position very creditably. He read the Fire Marshal's law, explained its duties and pleaded for better observance of the law. He referred to the Dumas case and its moral effect. He said there was too much paper flying around in the block bounded by Front and Laurel, 6th and 7th and the block immediately west of that. He said that Red Wing, a town of less people than Brainerd, had a paid fire department.

"If you had a fire at the brewery and your whole force is there, what would you do with your single line of hose if a fire sprang up in the main part?"

He pleaded with the people to clean their alleys and basements and to do everything possible to avoid fires. If no attention were paid to these warnings, why then the Fire Marshal would come and he would enforce the law with no uncertain hand.

A reference was made to Brainerd's fire ordinances which have "hung fire" for a year and a half and have not been adopted by the council. He

suggested referring them to a special committee of experts of the association who would pass on them and at no expense to Brainerd, and who would suggest improvements.

"And when you have ordinances," said Mr. Stinson and Mr. Chamberlain, "enforce them."

More questions were asked by those present and the meeting closed with the parting injunction from the insurance men and association members that Brainerd should be careful about having any more fires.

After exposure and when you feel a cold coming on, take Foley's Honey and Tar compound. It checks and relieves. Use no substitutes. The genuine in a yellow package always. For sale by all druggists.

An Ice Poultice.

In many cases of inflammation an ice poultice is a very useful application. It is made in this way: Spread a layer of flannel meal three-quarters of an inch thick on a piece of cloth and upon the meal put at intervals lumps of ice about the size of a marble. Sprinkle meal over the ice and cover all with the cloth, turning the edges over. In this way the ice will last much longer than it otherwise would, and the poultice will be quite comfortable.
